EDUCATION

Maharakham business school, Maharakham University Maha Sarakham, Thailand
Bachelor of Business Administration in Digital Business and Information Systems (DBIS) June 2023 – Present
• **GPAX:** 3.75

EXPERIENCE

Head of Public Relations June 2025 – March 2026
Student Council, Maharakham Business School (MBS) Maha Sarakham, TH

- Led a public relations team to manage official social media channels, increasing student engagement and community outreach.
- Designed and produced promotional materials, including posters, videos, and digital content for university-wide events.
- Coordinated with multiple departments within the student council to streamline communication and ensure effective information delivery.

Telesales Representative Apr. 2025 – June 2025
AGLAM (THAILAND) CO., LTD. Pathum Thani, TH

- Engaged with customers through outbound calls to present products and achieve daily sales targets while maintaining accurate database records for future strategies.

PROJECTS

SmartEvent | *HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, Google OAuth 2.0* May 2026 – Present

- Developed a full-stack web application for an intelligent event registration management system using PHP and Bootstrap 5, implementing a Responsive Web Design to ensure an optimized user experience across all devices.
- Designed and built a robust backend logic and Relational Database structure using MySQL via phpMyAdmin, utilizing foreign keys, indexes, and constraints to efficiently manage user authentication, role-based access control (User/Admin), and registration workflows.
- Integrated a secure online payment system via a Payment Gateway API (Sandbox Environment) to simulate end-to-end tokenized transactions, enabling automatic database updates and instant E-Ticket generation upon successful payment approval.
- Implemented Third-party Authentication using Google OAuth 2.0 to streamline the registration process and minimize user friction by automatically synchronizing user profiles (names and emails) into the MySQL database.

Cosmetics E-Commerce | *HTML, CSS, JavaScript, PHP, MySQL, Bootstrap* August 2025 – October 2025

- Developed a responsive full-stack e-commerce web application featuring comprehensive shopping cart functionalities.
- Designed and implemented a relational database schema using MySQL for basic data management, including product catalogs and user orders.
- Utilized Bootstrap 5 to build a modern, clean, and user-friendly user interface optimizing the shopping experience.
- Managed the end-to-end deployment process on a Linux Cloud Server, utilizing WinSCP for secure file transfer.

ICU Length of Stay Forecasting | *R, RStudio* August 2025 – October 2025

- Developed a predictive modeling framework in RStudio to compare the performance of Shock Index and Vital Index in forecasting the Length of Stay (LOS) for Intensive Care Unit (ICU) patients.

TECHNICAL SKILLS

Languages and Databases: JavaScript, PHP, HTML/CSS, SQL (MySQL, Oracle), Python, Java, R
Frameworks and Libraries: Bootstrap, Chart.js, Google OAuth 2.0
Analysis and Core Concepts: OOAD/UML Modeling, Data Structures and Algorithms
Developer Tools: Git, GitHub, VS Code, WinSCP, Vercel, RStudio
Language Proficiency: Thai (Native), English (CEFR B2 – Institutional Exit Exam)
