EDUCATION

Maharakham University <i>Bachelor of Business Administration in Digital Business and Information Systems</i>	Maha Sarakham, Thailand June 2023 – Present
Mechai Pattana School <i>High School Diploma in Science and Mathematics</i>	Burirum, TH May 2020 – March 2022

EXPERIENCE

Head of Public Relations <i>Student Council, Maharakham Business School (MBS)</i>	June 2025 – March 2026 Maha Sarakham, TH
- Led a public relations team to manage official social media channels, increasing student engagement and community outreach. - Designed and produced promotional materials, including posters, videos, and digital content for university-wide events. - Coordinated with multiple departments within the student council to streamline communication and ensure effective information delivery.	
Telesales Representative <i>AGLAM (THAILAND) CO., LTD.</i>	Apr. 2025 – June 2025 Pathum Thani, TH
Engaged with customers through outbound calls to present products and achieve daily sales targets while maintaining accurate database records for future strategies.	
Barista and Service Staff (Part-time) <i>Move on Coffee House</i>	Apr. 2024 – June 2024 Pathum Thani, Thailand
Delivered high-quality customer service by preparing beverages, managing order transactions, and handling cash registers accurately.	

PROJECTS

Cosmetics E-Commerce <i>HTML, CSS, JavaScript, PHP, MySQL, Bootstrap</i>	August 2025 – October 2025
- Developed a responsive full-stack e-commerce web application featuring comprehensive shopping cart functionalities. - Designed and implemented a relational database schema using MySQL for basic data management, including product catalogs and user orders. - Utilized Bootstrap 5 to build a modern, clean, and user-friendly user interface optimizing the shopping experience.	
Suicide Risk Assessment <i>Altair AI Studio (RapidMiner)</i>	August 2025 – October 2025
- Built a data mining and predictive analytics workflow utilizing Altair AI Studio to forecast and assess suicide risks. - Performed comprehensive data preprocessing, feature engineering, and model training to enhance prediction accuracy. - Analyzed complex datasets to identify key risk indicators, translating raw data into actionable insights for risk management.	
ICU Length of Stay Forecasting <i>R, RStudio</i>	August 2025 – October 2025
- Developed a predictive modeling framework in RStudio to analyze and forecast the Length of Stay (LOS) for patients in the Intensive Care Unit (ICU). - Applied advanced statistical modeling and machine learning algorithms in R to extract patterns from clinical healthcare datasets. - Visualized data insights and model evaluation metrics to support data-driven decision-making in hospital resource optimization.
